®MAX II 1095 IRONMAN

ULTRA® MAX II

Electric airless sprayers *for professionals*

Nothing compares to a Graco electric sprayer

Graco Ultra Max paint sprayers deliver the level of spraying reliability, performance and productivity you expect. Fully factory tested and field proven, they are a solid investment backed by a comprehensive, dependable warranty. Choose the right electric sprayer with the size and features you need to get the job done perfectly every time.

STANDARD SERIES:

Consistent reliability for repainting jobs and finishing on new residential construction

PROCONTRACTOR SERIES:

For smarter finishing jobs on larger residential and commercial jobsites

IRONMAN SERIES:

For larger and more demanding commercial and residential jobsites

NOT SURE WHICH SPRAYER MEETS YOUR REQUIREMENTS? CONTACT A GRACO EXPERT AND TOGETHER ANALYZE THE ANSWERS TO THE FOLLOWING QUESTIONS:

- How many liters/gallons will be sprayed per week?
- What length of pipes should be used?
- How many guns will be used and what size will the nozzles be?
- What types of material will be sprayed?
- What types of jobs will you be doing?

Expert advice will help you choose the right Ultra Max sprayer for every job.

PATENT PENDING

ULTRA® MAX II

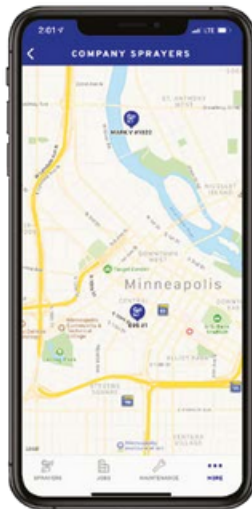

BlueLink Management App™

The easiest way to manage your business

Every ULTRA MAX electric sprayer benefits from this innovative management app that informs contractors wherever they are on:

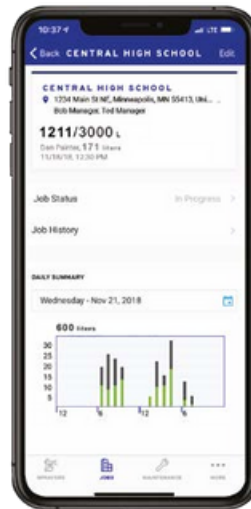

- Position and daily productivity of each sprayer
- Respect for work schedules and any concerns of personnel on site
- Proper maintenance of sprayers and any preventive maintenance needs
- Any need for materials or supplies

MONITORING OF EVERY SPRAYER

Know
the exact positions
and hourly productivity

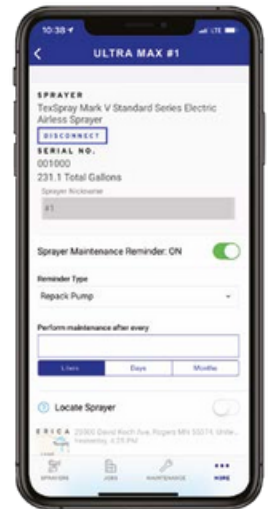

Reduce trips to the construction site

INFORMATION ON THE PROGRESS ABOUT WORK

Productivity on demand
and reporting
from any place

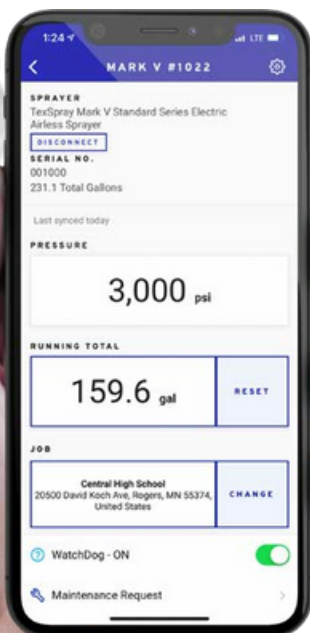

Ensure punctuality with
the necessary materials

MAXIMIZATION OF THE UPTIME

Set up plans
of maintenance
Get a quote and receive alerts

Make sure that
the sprayer is ready
for every job

BLUELINK™ SIMPLIFY YOUR BUSINESS

Now you can monitor each sprayer and know its location and hourly productivity. You can follow the progress of each job and make sure you are on time with the necessary materials.

Plus, you can maximize spray times by setting preventative schedules and receiving maintenance alerts.

NO MONTHLY FEE

Local operator fees may apply.

Endurance Pumps™ New levels of resistance

ULTRA MAX ELECTRIC SPRAYERS feature Endurance™ pumps, the most durable and reliable pumps on the market, lasting 2 times longer than the next best brand on the market.

V-Max Blue gaskets improve spray performance while the new, exclusive MaxLife™ EXTREME coating ensures extended life with lower operating costs.

Endurance™ pumps can spray the widest range of products thanks to enlarged passages for maximum performance.

Plus, they enable easy modular repairs with features like: the ProConnect pump removal system, easy-to-service QuikAccess intake valve, and QuikPak V-Max Blue cartridge seals.

The best becomes even more efficient

Endurance™ Vortex Pump

The ProContractor and IronMan Series utilize the Endurance Vortex pump, where the helical design eliminates side loading by rotation.

Enlarged fluid passages deliver high-velocity flow that rotates the piston, uniform wear extends life, and the pump employs a 360° wear surface to ensure exceptionally long service life.

Endurance™ Vortex MaxLife™ EXTREME Pump

MaxLife™ coating on ProContractor and IronMan Series extends life between seal changes by 6x. EXTREME MaxLife pump piston features the most wear-resistant surface ever, thanks to a composite material with abrasion-resistant properties; piston life is 3x greater than MaxLife.

Pump
Endurance Chromex™

It lasts 2 times longer than the competing pumps

Endurance Pump
Vortex MaxLife

6 times longer lifespan between a replacement and the other of the gaskets

Endurance Pump
Vortex MaxLife Extreme

Extends the lifespan by 3 times

of the pump piston, offering the lowest costs of sector management

Standard Series

A smarter way to complete large residential and commercial jobs

Larger paint jobs require the proven quality and performance of Graco's Standard Series large electric sprayers to deliver a job well done, every time.

CONTRACTOR^{PC}

SMARTCONTROLTM

BLUE LINK

FastFlush

Contractor PC Pistol

- The best finishing quality thanks to the Green Low Pressure (LP) low pressure nozzles preferred by professionals
- Get the job done faster and with less effort
- Extremely lightweight, minimal trigger pull force and adjustable trigger length
- Tool-free needle change with ProConnect cartridge design

Endurance PumpTM

- Chromex piston, stainless steel sleeve and V-Max Blue seals provide 2x longer life than the competition
- Long-lasting V-Max Blue seals
- QuikPak offers a simple modular repair solution; seals are replaced for the entire pump in just 2 minutes

SmartControlTM 4.0 with ProGuard

- Offers the best finishing quality; the shortest reaction time at any pressure
- ProGuard protects against power surges and non-optimal power conditions

BlueLink Management AppTM

- Measure productivity for any job on demand, wherever you are!
- You can monitor one or more jobs and see the overall progress status
- Simply reality! The data can be used for estimating future work and scheduling subsequent maintenance intervals

FastFlush²

- The motor runs at an even higher speed, ensuring 6 times faster washing with half the water
- Less time spent washing and more time spent spraying

MaxPower DC Brushless MotorTM

- High-torque brushless design ensures maximum performance with lifetime warranty

Advantage Drive[™]

- Heavy-duty precision gears ensure long life as well as quiet operation
- Lifetime warranty!

Easy Out Pump FilterTM

- The large filtering surface of 125.78 cm² (19.5 in²) reduces nozzle clogging and ensures a high-quality finish
- Removable vertical filter to minimize problems

Heavy Duty Recirculation Valve

- Maintenance-free design, resistant to high pressure discharge

WatchDog Pump Protection SystemTM

- Automatically shuts off paint supply when paint runs out
- Prevents the pump from running empty
- Minimizes material loss and dirt in case of pipe damage

ProContractor Series

A smarter way to work and complete larger residential and commercial construction jobs

If you want more than the standard features, make your wish come true.

Choose the ProContractor upgrade version. All the efficiency of the standard series and much more!

Features offered only by Graco will allow you and your staff to work smarter and get the job done with less effort.

PEndurance wave™Vortex MaxLife™

- The innovative MaxLife coating™ ensures extended life; 6 times longer life between gasket replacements
- The rotating piston offered by the innovative Vortex Rotating Rod technology guarantees maximum durability and uniform wear.

SQuikReel tube management system™ with 15m hose

- Hose guide prevents twisting, kinking, rolling
- for one-person use. Hose is always connected!
-

Only the required length of hose is unrolled, the rest remains on the hose reel

Shockproof inlet filter

- Extremely resistant, resists the hardest impacts

ProConnect™2

- Eliminates costly machine downtime
- Allows you to replace the pump with a spare part quickly and easily, while working
- No tools required thanks to the pinless design

Bright LED display

The easy-to-read LED display allows you to protect and monitor your investment by displaying the working hours/duration/litre counter and self-diagnosis data.

The ProContractor Series sprayers also include all the features of the Standard Series:

- **NEW**BlueLink app for job and sprayer management
- **NEW**SmartControl 4.0 with ProGuard
- **NEW**FastFlush 2
- **NEW**Contractor PC Spray Gun
- Easy Out filter collector
- Precision Advantage Drive
- MaxPower Engine • Heavy duty recirculation valve
- Sturdy trolley, for long life

Iron Man Series

For larger and more demanding commercial and residential jobsites

If you want more power, endurance and service life, choose ULTRA MAX 1095 IronMan. Unbeatable endurance.

The IronMan Series electric sprayers are built to handle the toughest jobsite routines day in and day out!
The most resistant pump, no more flat tires!

Endurance wave™ Vortex MaxLife™ EXTREME The IronMan Series sprayers also include all the features of the Standard Series:

- The innovative MaxLife Extreme technology guarantees the maximum life of any sprayer
- The rotating piston ensures even and constant wear for extreme durability
- QuikPak offers a simple modular repair solution; seals are replaced for the entire pump in just 2 minutes

- **NEW**BlueLink app for job and sprayer management
- **NEW**SmartControl 4.0 with ProGuard
- **NEW**FastFlush 2
- **NEW**Contractor PC Spray Gun
- Easy Out filter collector
- Precision Advantage Drive
- MaxPower Engine • Heavy duty recirculation valve
- Sturdy trolley, for long life

Puncture-proof wheels

- Lightweight and durable composite rim These
- tires cannot be punctured by nails, screws or other sharp debris

Shockproof inlet filter

- Extremely resistant, resists the hardest impacts

ProConnect™2

- Eliminates costly machine downtime
- Allows you to replace the pump with a spare part quickly and easily, while working
- No tools required thanks to the pinless design
