

LIME-BASED DECORATIVE POWDER
COATING FOR EXTERIOR AND INTERIOR USE

**A TOUCH OF
CREATIVITY FOR
YOUR PROJECT**

made in Italy

❖ Powderstone

Favourite colour? Natural.

Powderstone reproduces **natural-looking finishes** that recall the **materiality** of a rustic plaster on façades, offering a variety of decorative possibilities, including single-coat finishes, for all types of architectural projects: restoration, renovation and new construction.

Powderstone can also be used to create smooth and compact textured effects that create particularly warm and cosy interior settings.

effetto
monostrato
P405

Benefits:

Powderstone has excellent workability. Its special fibred composition allows it to be applied in good thicknesses without cracking, thus offering good protection to the treated substrate. It also has high breathability and naturally prevents the formation of mould and mildew on the substrate. Powderstone is solvent-free, does not release volatile substances, and enhances living comfort.
